June 2018

## Jesus in Ireland 2018

# Gathering As Family In Christ

**Women on Fire For Jesus**

Thank you for your prayers, love and support for our annual “Ireland Family Reunion Conference”. In this newsletter and booklet we would like to share and feast together on that which the Lord poured out from His heart during this precious gathering last month in Ireland.

Together we are each a part of His heart, and together we abide as His Body to cover and love Him. Thank you for being a precious part of the Lord to this ministry and God’s work in Ireland.

### **New Series for the Newsletter!**

The Spirit of God opened the Word to us during this Ireland conference in a very precious view of Christ Crucified. Quite possibly the rest of this year’s articles will be given to sharing from that view. This month’s article and booklet are the introduction to this theme entitled, “Lovers of the Desolate Jerusalem”. Tender care has been poured into the preparation of these materials so that they would be ready for you at this time. The main presentation of this topic can only be found on our website under the pages “2018 Ireland Conference” and “Lovers of The Desolate Jerusalem”. On those pages you will be able to view a slideshow presentation of each portion of this study. My suggestion is to only watch the slideshow that accompanies the part we are on, as there are 8 parts and 8 slideshows in this series. May the Spirit melt our hearts as we see and love the Lamb slain. [www.fireministriesinternational.com](http://www.fireministriesinternational.com)

**Thank you to the Fire Ministries leadership team who pour out Jesus and keep their altars lit, ever giving the Lamb. Thank you for helping make this feast possible and ministry possible.**

### **Kelly's Health update:**

**My heart continually receives this reality, “weakness with purpose”. In my weakness His strength is being manifest. During this current season of deeply pouring out I still feel weak, some times more than others. But I continue to experience the Life of Jesus as rivers from within, rivers that just keep giving.**

**I do sense the Lord is healing me gradually, and using the therapy and care I am receiving at this time. Your continually outpouring of love and care in this healing process blesses me more than you can know. From my heart I want to thank each of you for covering me in this time of need. These next months are FULL of pouring out for me, both domestically and abroad. Your prayers and care will be much needed and deeply appreciated.**
