

# Fire Ministries International

Dear ones,

September 2019

Oh, to know His heart! To really know Him beyond all that is taught and all that we do. Words go only so far, but our hearts cry out! Our hearts press in and reach forth to find Him. Let us pray together, seek together, and raise our “heart-rate” in regards to knowing Jesus! May our “beats per minute” increase as we see His face and discover things of His heart we have never known but will now embrace for His sake. May we become more aware of the One Who is ever within us, yet often times hid and forgotten in the midst of busyness for Him and the needs of this life. My heart cries out with yours as we pursue the heart of God together.

It has been a season of much travel for me since last April. For this upcoming season I will be ministering state-side in many areas. The amount of ministry I carry is always much more than I can bear, but not more than HE can bear through me. I continue to rejoice in opportunities to pour out Jesus while experiencing weakness in my body. His strength is made perfect in weakness because He is a Lamb! What a blessing to get to know Him more in this way during this season of my life. I thank God that He does not protect us from trials, but shows up in the midst of them so wonderfully! Each day I experience in such manifest ways that He is real, He is alive and He is our Life. May He truly be the One people see when they are with us. He is SO MUCH MORE than just a message! We love You Jesus!

For me personally, the Lord has been deeply ministering in the Word concerning the heart of the Lamb. I am broken hearted before His beauty and crying out for more of His nature within. In the months to come I will be sharing some of these areas from the Word in our monthly articles. In the new year we will also begin a series from the book of Leviticus, as I am teaching from Leviticus in the bible school right now. This class is up on the Fire Ministries website, along with some new songs, Skype classes, and sharings from recent mission trips.

This past June, just a week before I flew out to Ireland, my parents celebrated their 50<sup>th</sup>

Anniversary. It was such a special event. There was so much love and thankfulness celebrated during this time in my family. I want to take this opportunity to say how much I love my Mom and Dad and all they mean to me. Even before I was born my Mom dedicated my life to God. She told the Lord I belonged to Him, and in a very real way gave me to Him. Her heart for Jesus has profoundly affected my life. She continues to be one of the hungriest people I know who desires more of Jesus. And my Dad has loved me through thick and thin and I thank God for him! May the Lord bless this new

season of their lives, and may they come to know Jesus in new ways.

I know a newsletter can seem impersonal in many ways, but I really want to express my gratefulness to all of you. Your heart for Jesus that comes forth in so many ways is like wings and coverings and supply of His Life in ways well beyond what you know. Thank you and may He bless you abundantly.

Together in awe of Him, *Kelly*

# It's The Way

It's the way you lived your life with Him  
on the inside.

It's the way in the hidden chambers of your heart  
you didn't hide flesh and pride.

It's the way you didn't run over the top of Him...  
or His  
when you could have  
and no one ever would have known.

It's the way you loved Him  
with all your heart and soul.
