

# **FIRE MINISTRIES INTERNATIONAL**

**JANUARY 2020**

**2020 VISION**

GLORY TO GOD... It's 2020! My local fellowship has been praying and believing for the past ten years for the Lord to raise up a generation in 2020 and the years to follow that would know the Lamb in a manner that His nature and government would be formed within them. We prayed and believed according to II Kings 20:20 for conduits that could be built to provide a release of the Lamb's living waters to reach others of this next generation. I believe that first and foremost we are those living conduits that are being prepared to share the Life of Jesus with this next generation. Although creativity explodes during seasons of new life, and new ways of sharing His Life in outreach manifest, there is something much higher God is doing that is the Source of it all. He is crying out, dealing deep, and moving by His Spirit IN US to bring forth Christ. This increase of Christ in us also involves a DECREASE of us. John the Baptist put it this way in John 3:3, "He MUST increase, but I MUST decrease." For more of Jesus to flow through us, there needs to be less of us getting in the way. Thank God for the Cross and those who are willing to apply it to their own flesh.

May we add our hearts of faith and persistent prayer to this generation for something more than relevant outreaches and ministry tools, but a deep inward working of the Cross to remove all flesh and bring forth Christ in His nature. Jesus is the defining feature of a generation that enters in. No one generation is better than the next. No person is more special than another person. The living Christ in His Body is the ONE Who makes all the difference. When Jesus is coming forth in His Lamb nature through a people it releases LIFE, opens hearts, shakes the earth, stirs the enemy, changes lives... and most importantly, reaches the Father's heart. May we allow Christ in us, formed and poured forth, to fulfill our destiny as a people and as individuals. Let's diligently pray for one another at this time. I am aware of God dealing deep, breaking loose, and coming forth in new ways in so many people right now. He is on the move IN US and will be moving THROUGH US in new ways as and if we yield to His inward work. May we stand with one another in faith, prayers, and Lamb love.

Fire Ministries will continue to be given in many areas to support the Lord's purposes in the 20/20 vision, as well as some new areas that the Lord is even now bringing forth. Each day is full to the brim with the things of the Lord's heart and those who are working together to release His Life. Pray for us! Although I already carry an enormous amount in the realms of ministry, I now see the Lord increasing those areas even more, but also supplying His Life to fill and carry them. What I do ask though, is for your prayers and support during the season to come. As the Lord leads, any financial help will be appreciated and needed for the things of the Lord's work in this season. Also, in the midst of this I continue to feel the effects of Lyme's disease, but more importantly I feel the strength of His Life quickening me. All Glory to the Lamb!

We are in the process of preparing for our two annual Ireland trips. Both the May conference and the July "Pray, Get and Away" are becoming filled with hungry hearts desirous to meet with the Living God! We are fundraising on all sides, as well as doing the many things required to organize such trips. This semester in Bible School I am teaching a class on "The Cross in the Song of Songs" that is available online at the website for those who want to join with us! This month's booklet "Vayikra" comes from our Leviticus class that is also up on the website in video and audio format for those interested.

*I thank God for each of you. You are in my heart and my prayers with tender Jesus love!*

*Yours in Him, Kelly*
