

More and More of Jesus!

Hi Ladies!

We all send our greetings in Christ!

Thank God for His constant and faithful covenant love! That He loves us so much that He doesn't leave us alone but continually works in our lives to bring forth Christ from us. This process involves the deep inner work of applying the Cross in all it's severing power. Without this deep and inward application of all that Christ's death accomplished, we will remain untouched and unchanged on the inside. What a tragedy that would be! It is so worth it to let the Lord have His way with us. We must encourage each other DAILY to keep our forehead's SET towards Jerusalem and not let anything hold us back from knowing the Lord and being filled with the Lord as one Bride! Oh, what incredible and eternal purpose God has called us together into as one. May we not forget that or slacken our pace to seek Him with all our hearts! We must endeavor to keep that fire alive and burning in each other.

The Cross is the altar where the Bride loses her old identity and life to gain Christ as her all. It is a blessed place, even though it is a place of loss and exposure of our flesh. We must let the old be removed so the new (Jesus) can come forth! May we pray eternal prayers for one another, that Christ may be formed in His Church!

We love you and we need you!
